Momentum Set in the Primary Market, Firms lining up to file for IPO

The Indian Market is all set to witness a crowded IPO lane with many companies lining up to launch their public offerings. In the past weeks, more than a dozen companies from various sectors like

banking, infrastructure, logistics have filed their offer documents with market regulator SEBI (Securities and Exchange Board of India).

If the secondary market remains supportive, experts are in the opinion that the IPO market will go a big way in the coming months. The rise and expectations from the Stock Market and a positive outlook for the next few years have acted as a catalyst to bring the said momentum to the IPO market. The Companies that have already started with the process few months back are all set to come to the market. Attractively priced IPOs are getting good response from the Investors. After remaining dull for almost two years, the market receiving such overwhelming response from the investors shows that there is still enough appetite for quality issues which are rightly priced. With the recently concluded IPOs showing signs of revival, the confidence among the bankers has also gone very high. Among these IPOs, VRL Logistics issue got subscribed more than 74 times. Similarly, the Rs 1038 Cr IPO of Inox Wind was also subscribed almost 14 times.

The Market Experts are expecting the year 2015 to close with a strong IPO issuance and the same is expected from next year as well. For Private equity investors who have been waiting for this kind of sentiment to prevail in the market, this is surely a good opportunity. Many start ups are also expected to hit the market once the special regulations covering them is finalized. Going by the number of applications submitted to the regulator, Rs 25,000 Cr is expected to be raised through this avenue in the current financial year.

Pricing is critical for the success of an IPO, those companies with good management and a proven track record are surely going to find good number of investors!

Thanks & with best wishes

National Skills Registry (NSR): A Reliable Information Infrastructure of Employees

NSR is a NASSCOM initiative to have a reliable information infrastructure of employees working in the IT/ITES and other select industries. Many Big Companies are implementing NSR as a standard requirement for their employees, more than 14 Lacs Professionals have been registered! Join today and Get benefitted!

Key Highlights:

Creation of a permanent and unique profile on an industry-wide reference database driven by NASSCOM.

No hassles of repeat background check for each employment, thereby speeding up joining formalities.

Deterrent for competing job applicants with inflated and fake profiles.

Transparent background verification process.

Only registered applicant will have an access to profile and can update the changes.

Companies can view profile only with registered applicant's authorization.

Registration process ensures that each employee registered on NSR is well-identified for attributes such as name and photograph, so that there is correctness of identity.

Alankit has taken a lead by registering over 90% of the professionals through various POS set-up in all major cities. The objective is to create higher standards of recruitment practices which will in turn, help in maintaining India's Global competitive advantage.

KNOWLEDGE CAFE

Have you given a thought for a guaranteed Pension?

“Will you be able to live your dreams and meet the needs of your loved ones after your retirement? Plan for it with Confidence!”

Surveys show most of the Indians do not give priority to Retirement Savings. People keep themselves so busy with work, family and investing in other instruments that they forget to plan or think about what they will do when they retire! When you are young, retirement seems like a distant goal, but you should start early and plan for your golden years to have a secured retirement. With time on your side, saving for retirement becomes a much more exciting affair.

The goal of your retirement savings is to build your own pension. In future when your current stream of periodic income will cease, you can replace it with the pension you have built for yourself.

A major portion of employees (even in the organised sector) today are also not covered by any guaranteed pension scheme. With better nutrition and improved medical care, today's generation has to plan for a much longer retired life.

The inflation factor will also come into consideration while estimating your pension needs. Inflation in the country has averaged 8 per cent in the last ten years as opposed to 5-6 per cent in the decade before. This has significant implications for the amount of pension you will need and the savings you need to make today.

Start small and then gradually you can keep increasing the amount you save each month. The sooner you start saving, the more your money will grow. Follow a systematic plan, stick to it and set your financial goals!

शेयर बाजार की संक्षिप्त जानकारी

शेयर का सीधा अर्थ है हिस्सा। अर्थात कंपनियों में हिस्सा। उदाहरण के लिए एक कंपनी ने कुल 10 लाख शेयर जारी किए हैं, आप कंपनी के जितने शेयर खरीदते हैं आपका उस कंपनी में उतने का मालिकाना हक हो गया जिसे आप किसी अन्य खरीददार को जब भी चाहे बेच सकते हैं। आप 100 से लेकर अधिकतम शेयर खरीद सकते हैं।

कंपनी जब शेयर जारी करती है उस वक्त किसी व्यक्ति या समूह को कितने शेयर देना है यह उसका विवेकाधीन अधिकार है। बाजार से शेयर खरीदने / बेचने के लिए कई शेयर ब्रोकर्स होते हैं जो उनके तय पारिश्रमिक लेकर अपने ग्राहकों को यह सेवा देते हैं। इन कंपनियों के शेयरों का मूल्य मुम्बई शेयर बाजार (बीएसई) में दर्ज होता है। सभी कंपनियों के मूल्य उनकी लाभदायक क्षमता के अनुसार कम-ज्यादा होता है। इस पूरे बाजार में नियंत्रण भारतीय प्रतिभूति एवं विनियम बोर्ड (सेबी) का होता है। इसकी अनुमति के बाद ही कोई कंपनी अपना प्रारंभिक निर्गम इश्यू (आईपीओ) जारी कर सकती है।

प्रत्येक छमाही या वार्षिक आधार पर कंपनियां लाभ होने पर अंशधारकों को लाभांश भी देती हैं। और कंपनी की गतिविधियों की जानकारी से भी रूबरू कराती है।

शेयर बाजार में लिस्टेड होने के लिए कंपनी को बाजार से लिखित समझौता करना पड़ता है जिसके तहत कंपनी अपनी हर हरकत की जानकारी बाजार को समय-समय पर देती रहती है, खासकर ऐसी जानकारियां, जिससे निवेशकों के हित प्रभावित होते हैं। इन्हीं जानकारियों के आधार पर कंपनी का मूल्यांकन होता है और इस मूल्यांकन के आधार पर मांग घटने-बढ़ने से उसके शेयरों की कीमतों में उतार-चढ़ाव आता है। अगर कोई कंपनी लिस्टिंग समझौतों का पालन नहीं करती है तो उसे डीलिट कर देने की कार्रवाई सेबी करता है।
